Test your knowledge on using dashboards

TOTAL POINTS 3

1. Fill in the blank: A dashboard organizes information from multiple datasets into one central location. This enables the information to be _____. Select all that apply.   **0.75 / 1 point**

    ☑ tracked

    > ✓ **Correct**
    > A dashboard is used to track, analyze, and visualize information.

    ☑ visualized

    > ✓ **Correct**
    > A dashboard is used to track, analyze, and visualize information.

    ☑ protected

    > ✗ **This should not be selected**
    > A dashboard is used to track, analyze, and visualize information. Dashboards are not used to protect data.

    ☑ analyzed

    > ✓ **Correct**
    > A dashboard is used to track, analyze, and visualize information.

2. A data analyst is choosing their dashboard layout. They want the layout to automatically resize itself based on the dashboard size. They should use a tiled layout.   **1 / 1 point**

    ◉ True
    ○ False

    > ✓ **Correct**
    > To automatically resize the layout based on the dashboard size, the analyst should use a tiled layout.

3. What are some reasons why you might choose to use filters when creating a dashboard view? Select all that apply.   **1 / 1 point**

    ☐ To remove outliers that don't conform to your hypothesis

    ☑ To zero in on what's important to your stakeholders

    > ✓ **Correct**
    > You might choose to use filters in order to highlight individual data points or to zero in on what's important to your stakeholders.

    ☐ To put the data in chronological order

    ☑ To highlight individual data points

    > ✓ **Correct**
    > You might choose to use filters in order to highlight individual data points or to zero in on what's important to your stakeholders.
