Test your knowledge on using SQL with large datasets

TOTAL POINTS 4

1. In MySQL, what is a proper way to write a SELECT clause starter? Select all that apply.

   0.75 / 1 point

   ☐ "SELECT"

   ☐ 'SELECT'

   ☑ SELECT

   > ✓ **Correct**
   > In MySQL, a proper way to write a SELECT clause starter is either SELECT or select.

   ☐ select

   > You didn't select all the correct answers

2. A database table is named blueFlowers. What type of case is this?

   1 / 1 point

   ⦿ Camel case

   ○ Sentence case

   ○ Snake case

   ○ Lowercase

   > ✓ **Correct**
   > blueFlowers is in camel case.

3. In BigQuery, what optional syntax can be removed from the following FROM clause without stopping the query from running?

   1 / 1 point

   FROM `bigquery-public-data.sunroof_solar.solar_potential_by_postal_code`

   ⦿ Backticks

   ○ Dashes

   ○ Dots

   ○ Underscores

   > ✓ **Correct**
   > The name of the dataset is shown between two backticks to help people read the query more easily. If you remove the backticks, the query will still run.

4. In the following FROM clause, what is the table name in the SQL query?

   1 / 1 point

   FROM bigquery-public-data.sunroof_solar.solar_potential_by_postal_code

   ○ sunroof_solar

   ○ public-data.sunroof

   ⦿ solar_potential_by_postal_code

   ○ solar.solar

   > ✓ **Correct**
   > The table name in the SQL query is solar_potential_by_postal_code. This table is in the sunroof_solar dataset, a public dataset in BigQuery.
