TOTAL POINTS 3

1. In a spreadsheet, what is text wrapping used for?

1 / 1 point

○ To remove text that is too long to fit in a cell

○ To clip text within a cell so it doesn't overflow into an adjacent cell

⦿ To automatically change cell height in order to allow all of the text to fit inside

○ To allow text to overflow into an adjacent cell

✓ **Correct**
In a spreadsheet, text wrapping is used to automatically change cell height in order to allow all of the text to fit inside.

2. The columns in a spreadsheet are ordered by letter, and the rows are ordered by number.

1 / 1 point

⦿ True

○ False

✓ **Correct**
In a spreadsheet, columns are ordered by letter and rows are ordered by number.

3. Fill in the blank: In a dataset, a row is called an observation. An observation includes all of the _____ for something contained in the row.

1 / 1 point

⦿ attributes

○ diagnostics

○ commonalities

○ names

✓ **Correct**
In a dataset, a row is called an observation. An observation includes all of the attributes for something contained in the row. An attribute is a quality or characteristic of data.
